In reply to the enquiry contained in your letter of the 30th ultime respecting Hamburg Report No 21877 on the machinery of the s.s. "LIBERIAN" I have to confirm that the internal diameter of the main boilers is 4400 mm and not 4000 mm as given on the report. The mistake made in reporting the incorrect figure is regretted.

I may add that the same mistake was made in the case of the sistership "GUINEAN", Hamburg Report No 21844.

The test sheets for the dynamos, which you wish to have, are enclosed herewith.

I am, Dear Sir,
Yours faithfully

for A. Chisholm
Am.
