Insert in S.R.L (A bower anchor and 60 fathoms c.c. to be supplied)

*Italian  
first*

The Surveyors should be requested in future similar cases to insert the numbers of reports and names of any sister vessels. They should be referred to Circular 155/ and informed it is concluded the lengths of the bridge and forecastle decks are 47' and 50' respectively and the thickness of the inner side girders in the double bottom tank under the engines as reported has been approved, but this should be confirmed as no plans have been forwarded for the thickness in the sister vessel "Empire Steel" was .60"
