

URGENT.

Motorship "DEWDALE"

Special Survey due 7,59
Last drydocking 3,58
Donkey Boiler Survey due 3,59
Steam Pipe Survey due 10,57

The ship was assigned the notation
"Surveys overdue - Class Suspended 10,59"
when the Admiralty stated that as the ship
was for disposal they did not intend to
undertake any further surveys.

Mr. Nicholas telephoned from Southampton this
morning and stated he had received a request from
Cousins & Co., of Weymouth for the issue of a certificate
to allow this ship to proceed to Belgium as a hulk in tow.

Mr. Nicholas asks us to telephone him as soon
as possible our minimum requirements for the issue
of such a certificate, also what is necessary if
a freeboard certificate is required.

He understands that the ship has been sold to
Belgian Owners and the Ministry, who have been
approached, have stated that they have no interest
in the ship.

*Submitted she be examined & found or placed
satisfactory condition for the proposed voyage
as an unclassified hulk in tow, all towing
arrangements being the responsibility
of the Owners.*

*If steam is required for towing purposes then
at least one boiler should be surveyed*
