Dear Sir,

Steamer "DIANA" (3339 tons)  
Naples Rpt.N° 7446

RECEIVED

4 SEP 1962

Ans'd.....

In reply to your letter of the 17th July last we have to state that the inside diameter of the auxiliary steam pipes is less than 3" and therefore same do not require to be tested.

An amended Certificate for S.P.S. is attached herewith.

As this vessel will be sold for demolition within the next two or three months, and the Company had cables of 1 13/16" on stock it was not considered politic to insist on our point of view.

Yours faithfully.

(E.F. Butler)
