ENGINEER - SURVEYOR	Gal	4937

For the **CHIEF SHIP SURVEYOR** and **CHIEF ENGINEER SURVEYOR**

In cases which have to be submitted to the Classing Committee "the endorsement to contain a succinct summary of any repairs that have been required and to show the cause or causes of such repairs, and also to bring out clearly any exceptional features in connection with the case so that the Classing Committee may have all the salient points presented in the endorsement."—(Extract from Sub-Committee's Report, 24/5/92).

ure of Survey Classification, Alterations, ~~When the~~ Damage and Repairs.

This single screw tanker was built in 1936 to the classification of the American Bureau of Shipping.

Plans for the sister vessel "POUCOU", classed with this Society 12,44, were approved in the New York Office.

If this case had been dealt with at this Office, the vessel would have been recommended for the class 100A1 "Carrying Petroleum in bulk".

"Subject to (30 fathoms of chain cable being supplied)".

100AL "Carrying Petroleum in bulk" "Fitted for oil fuel F.P. above 150°F"
