BY AIR MAIL

71, Fenchurch Street, E.C.3.

5th September, 1946.

Dear Sirs,

E.

"RIVER CLARENCE", "RIVER MITTA", "RIVER
BURNETT" and "RIVER NORMAN".

With reference to my letter of the 30th ultimo respecting the refrigerating installations of the above vessels, I have to state that when the capacity of the refrigerating machinery was examined it was concluded that the refrigerating installation made by Messrs. J. & E. Hall Ltd., and described in London R.M.C. Report No. 1434, was fitted in the s.s. "RIVER BURNETT".

It is now observed from your communication of the 3rd July last, received here on the 2nd instant, that this refrigerating installation has been fitted in the s.s. "RIVER NORMAN".

*attached to
"River Norman"*

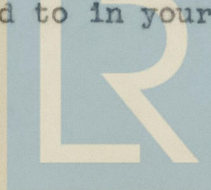

In the circumstances I shall be glad if you will be good enough to confirm that the refrigerating installation in the "RIVER BURNETT" is similar to that in the "RIVER NORMAN".

Yours faithfully,

R.P.R.
Secretary.

The Surveyors,
SYDNEY.

P. S. For your information I should explain that London Rpt. No. 1434 covers refrigerating machinery sets Nos. 11862/3 referred to in your letter of the 3rd July last.
