

LLOYD'S REGISTER OF SHIPPING

48 DALHOUSIE STREET,

Quebec. Sept. 17th., 1943.

A.R. Riddell, Esq.,  
Lloyd's Register of Shipping,  
231, St. James St., West,  
Montreal, P.Q.

Dear Mr. Riddell:-

Your letter of the 9th inst., re-  
London Classing Letter on Montreal Report No. 5870  
"FORT ALBANY" received and contents noted.

However, I would confirm that there  
is only one conductor per Pole.

Enclosed please find diagramatic  
sketch of degaussing panel as supplied by the  
Royal Canadian Navy.

It will be noted that one only  
motor generator can be run at a time, as the rever-  
sible links must be removed and their position  
changed before using the alternate generator.

Trusting that this is the infor-  
mation desired to clear up this matter.

Yours very truly

(Sgd) D. HALKETT
