22nd January, 1935.

Dear Sir,

E. With reference to your Report No.4024 on the steel screw ferry "DARTMOUTH", I have to request that you will forward as soon as possible a plan of the pumping arrangements in the engine and boiler rooms, in order that this case may receive consideration.

You should, at the same time, also state whether the statement in the report regarding the bilge suctions in the holds is correct, as the plan shows two of 2" diameter.

I am, Dear Sir,

Yours faithfully,

Secretary.

G.Allan, Esq.,
MONTREAL.
