

FREEBOARD REPORT on the Messrs. Hawthorn Leslie & Co. Ltd. Yard No 596.

It is submitted the builders be informed that, in making the preliminary freeboard computation for the above vessel, the fullest possible allowance was made for the after erection, regarding it as a combination of bridge, poop & raised quarter-deck combined. They might be reminded that the freeboard assigned is set off from the tops of the .72 stringers ~~plates~~. It has been assumed that there are no openings in the bridge front bulkhead.
