12th June, 1947.

Dear Sirs,

S.S. "TEDDY"

With reference to your First Entry Report No.23493, I shall be glad if you will confirm whether the material test results on the working bronze propeller comply with the requirements of Section II of the Rules for Quality and Testing of Materials, in view of the desired notation of "Strengthened for Navigation in Ice".

In view of the small size of the vessel, I shall also be glad if you will state whether the machinery spare gear supplied is for full service or for "short voyages" only. If the former, the spare propeller should also comply with the Rules for Ice Navigation.

Yours faithfully,

Copy sent Gls.

Clerk to the
Classification Committee.

The Surveyors,
GREENOCK.
