WRECK SECTION

No 792 A

Dear Sir,

S/S "ALGARROBO"

I refer to the "Return 10" furnished by this office on the 30th June 1963, in which the above vessel is reported as "stranded", also to the copy of our Report N°C.1371 forwarded on the 3rd July 1963.

A further examination after boarding has been made of the parts of the vessel above water and a copy of our report of this examination is attached herewith, also our Report 8 on this case.

It is understood from the London Salvage Association that consequent upon further information supplied by this office, the recommendation that the vessel be considered a constructive total loss has now been accepted by Underwriters, the cost of known damage, without salvage, towage and underwater damage having been estimated to be in the neighbourhood of £100,000, and the insured value of the vessel £130,000.

Yours faithfully,

N. Williams
