ENCLOSURE.
(Two Certificates)

4th April, 1939.

Dear Sir,

S.

With reference to Glasgow First Entry Report No.60852 on the motorvessel "BRITAMER" I have to say it is concluded the sea suction valves are provided with efficient strainers, also that the compasses have subsequently been adjusted with and without the electrical installation in use, but perhaps you will be good enough to enquire of the Surveyors and let me know whether this is so.

I take this opportunity to forward herewith two Certificates in this case.

I am, Dear Sir,

Yours faithfully,

Clerk to the
Classification Committee.

The Secretary,
GLASGOW.
