The Secretary,
Lloyds Register of Shipping,
71, Fenchurch Street,
LONDON. E.C.3

Dear Sir,

m.v. "Pacuare" (ex "Empire Alde").
m.v. "Nicoya" (ex "Empire Mowddach").

As per request submitted through our Head Office from your Electrical Surveyor, we enclose herewith Test Sheets on 14 h.p. and 19 h.p. 220 volt motors supplied by Messrs. Campbell & Isherwood Ltd., in connection with Messrs. Thermotank's fans for air circulation in holds on above vessels.

Regarding your request for sectional drawings of these motors, Messrs. Campbell & Isherwood inform us that owing to extreme pressure of work, this service has had to be suspended. We are, however, endeavouring to obtain copies, and if successful, will forward same to you.

Yours faithfully,
for ELDERS & FYFFES Limited.,

G. Lewthwaite
Superintendent Engineer.

Reference to the Office of the Registrar of Companies

Referred to the Chief Engineer Surveyor.

[Handwritten signature]

It is submitted Messrs Eddies & Tyffers Ltd be informed that the test certificates for the 14 H.P. and 19 H.P. Refrigerating motors intended for installation in the vessels M.V. "Pomare" and M.V. "Nioga" have been examined and found satisfactory and that their remarks concerning sectional drawings of these motors have been noted.
