

M/V "EMPIRE MOWDDACH" ex "Pontos".  
-----

Rule Dimensions:- 368 x 44.62 x 28.78 to upper deck  
-----

This is an ex German vessel built in 1935 for classification with the Germanischer Lloyd \*100A/4 (E) "With Freeboard".

The Hamburg Surveyors have forwarded plans of poop to be fitted, also plan showing the plating-in of a part of the ship's sides between the upper and boat decks. These have been examined and appear to be generally in order.

There is no information in this Office regarding the vessel, but it is presumed from the Hamburg Surveyors' letter that she is now to be surveyed with a view to a certificate for "Examined L.R." being issued.
