DEUTSCHE WERFT
Ko/Fi.

(24) HAMBURG 1, 11th April 1946.

British Ministry of War Transport
War Transport,
Attention of Mr. Pritchard,
Lloyd's-Surveyor.

M.S. "PELIKAN" and "PONTOS"
No. 1124 and 1125.

(24) Hamburg - 36
Alstereck Jungfernstieg 151.

Referring to your yesterday's visit we send you herewith the
General-Arrangement plan SE 1 (1 copy for each ship) and the
following plans (2 copies each) for approval.

- SK 1 Verkleidung des Ganges auf dem Hauptdeck
Spt. 49 - 95 BB und St. B.
Screen walls at the side of the alleyway on
1st deck section 49 - 95 port and starboard side.
- SK 2 Aussenhaut in der Poop
Side plating of poop
- SK 3 Poopdeck und Frontschott
poopdeck and poop front bulkhead
- SK 4 Backdeck
forecastle deck
- SK 5 Aussenhaut in der verlängerten Back
Side plating of lengthened forecastle.
- SK 6 Dopplungen im 1 Deck im Bereich des Backfront-schottes
und der Luftkühler-Offnungen.
Doubling plates on 1st deck in way of forecastle end
bulkhead and air cooler openings.

We beg to remark that the plans SK 1, 2 and 3 belong to both ships,
whereas the plans SK 4, 5 and 6 are only good for the "PELIKAN".
Furthermore, we beg to remark that on the plan SK 4 the hatch
size differs from that on the general plan SE 1 of the "PELIKAN",
and we beg to discuss this arrangement once more with the Owners.
We think the size to be sufficient, so that the hatch now sited
in the 1st deck can be changed to the forecastle deck without any
alteration and the pillaring at the fore end of the hatch will
center to the pillaring below.
