Lloyd's Register of Shipping.

7 AUG 1947

Port

Hamburg.

19th July 1947.

This is to Certify that

Thomas D. Potts

undersigned Surveyor to this Society did at the request of Representative of Messrs. Kaye Son & Co. Ltd., of London, attend on board single screw motor vessel "EMPIRE MONDDACH" of London, as she lay afloat at Hamburg on the 18th July 1947 for the purpose of ascertaining her condition with a view to a contemplated voyage under her own power from Hamburg to London U.K. in ballast.

The vessel has been under survey in drydock and afloat at Hamburg since January 31st, 1946 with a view to classification with Lloyd's Register of Shipping.

Requisite surveys have been completed with the exception of Freeboard Survey and Refrigerating Machinery and appliances.

Surveys C 11 and C 11 (Comp.) have been partially completed and will be forwarded to London U.K. for completion.

Insulation remains to be completed in way of engine room pipes, No 2 hold tank top and No 2 hold, also in way of cooler fans.

To complete the survey of Refrigerating Machinery and appliances, the cooler require to be installed, the evaporator coils require to be cleaned out and fitted to compressor rods. The whole of the Refrigerating Machinery and appliances require to be tested under working conditions.

Electrical circuits installed in the crew's accommodation in the poop space are not in accordance with Rule Requirements.

Equipment used is such as was approved as a war time measure by Germanischer Lloyd and the appropriate German Government Department, but it is recommended that the new installation be further examined and dealt with as found necessary prior to the vessel's arrival in U.K.

Main and Auxiliary Machinery, the steering gear, windlass and pumping appliances have all been examined under working conditions during a mooring survey and it is considered that this vessel is fit to proceed on a contemplated voyage from Hamburg to London in ballast, where it is stated all outstanding survey requirements will be attended to.

Thomas D. Potts

Surveyor to Lloyd's Register of Shipping.

This certificate is issued upon the terms of the Rules and Regulations of the Society, which provide that:—
The Committees of the Society use their best endeavours to ensure that the functions of the Society are properly performed and it is to be understood that neither the Society nor any Member of any of its Committees is under any circumstances to be held responsible for any inaccuracy in any report or certificate issued by the Society or its Surveyors, or in any Register Book or other publication of the Society, or for any error of judgment, default or negligence of any of its Members or any Member thereof, or the Surveyors, or other Officers or Agents of the Society."
