29th November, 1947.

Dear Sir,

In reply to your letter of the 20th instant regarding Glasgow Report No. 71780 on the steamer "NARVA", the Surveyors state that the accumulation test was satisfactory, and that the Owners inform them the total superheater surface is 58 sq.metres or 624 sq.ft.

The Surveyors add that the new water gauge cocks have been delivered to the Owners and will be fitted at the first opportunity.

I am, Dear Sir,
Yours faithfully,

K. Miller
Secretary to the
Glasgow Committee.

The Secretary,
LONDON.
