S

Dear Sir,

I have your letter of the 26th ultimo with enclosures relative to a recommendation regarding indented plating in our Report No. 105843 on the Steamer "PARIS CITY".

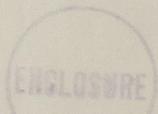

The suggestion made in the last paragraph of Mr. Stocks' letter has been examined with the Surveyor concerned and it is agreed that this endorsement might be omitted in view of the minor nature of the indents concerned.

The enclosed papers are returned attached.

Yours faithfully,

L. P. Edgar
