AN8D.....

Dear Mr. Sladden,

I return herewith the Deferred Reports on the "PARIS CITY".

I called on Mr. Liley and also had a talk with Mr. Major the Superintendent who attended the survey at Newcastle; the latter was clearly of the opinion that he had implemented his office instructions to do everything to obtain a clear certificate hence the enquiry. Mr. Major added that he was unaware that our Surveyor was not satisfied in this respect and undoubtedly this is a point to which we should give more heed - a clear understanding between Surveyor and Superintendent as to any items outstanding. Actually the items appearing on the back of the certificate are of such trivial nature that few ships do not merit such endorsement.

I suggest, with Newcastle Surveyors concurrence, that fresh certificate omitting the endorsement, be substituted for the present certificate.

Yours sincerely,

R.J. Sladden Esq.,

LONDON.
