

"RUNIC"

D.O.

HARLAND & WOLFF'S YARD NO. 1414

This vessel has been under survey during the fitting out and is due to proceed on sea trials on or about the 23rd March, 1950.

To complete fitting out, the following items remain to be done:-

- Oil fuel discharges to test. —
- Extended spindles and quick closing valves to test. —
- Evaporator Safety valve to adjust.
- Pumping arrangement in machinery and tunnel spaces to test.
- Attend Sea Trials.

The First Entry Reports on the Turbine machinery and boilers are drafted out with the exception of completion dates for the following:-

- Completion of pumping arrangements.
- Engines tried under steam.

Mr. Daintith has been fully advised regarding the position of survey and has now taken over as from the 10th March.

N. Russell
9/3/50
