2nd August, 1962.

C
AH/HW
Dear Sirs,

Motorship "HAVBRAUT"

Before your Report No. 4965 receives the consideration of the Committee, I have to inform you that when the notation of Rest # 5A - from 12,52 "For fishing purposes also for the carriage of light cargoes" was assigned in January of 1953, the equipment approved consisted of two bower anchors and one stream anchor also 120 fathoms of 14/16" diameter chain cable with the renewal diameter of 25/32".

You now report 150 fathoms of chain cable on board, 45 fathoms of which are worn to below 27/32".

I shall be glad if you will (1) forward the mean diameter of each individual length of chain cable recommended to be renewed and (2) inform the Owner that only 15 fathoms require to be renewed provided the remaining 30 fathoms of chain cable are removed from the ship.

Yours faithfully,

Deputy Clerk to the
Classification Committee.

The Surveyors,
OSLO
