Special Survey due 9.61 commenced 12.60 and  
completion postponed until mid-April, 1962.

items

(d)

In December last a General Examination was carried out afloat and in drydock, together with drillings, and a number of Special Survey repairs were recommended and the Special Survey advanced. In view of the condition of the shell and deck plating it was considered that the Special Survey should be carried out at the earliest opportunity. On 9th March the Committee agreed to the maintenance of class for a voyage from the Persian Gulf to Hong Kong or Japan arriving about mid-April.

nts  
eed

val

The Owners state that the ship is at Hong Kong for sale or lay-up. They ask for the Society's minimum requirements to allow the ship to proceed in ballast from Hong Kong to the Persian Gulf, there to load a cargo for the Mediterranean and to lay up at an Italian port.

tion

Submitted that the owners be informed that their proposal for the ship to proceed in ballast from Hong Kong to the Persian Gulf, there to load a cargo for the Mediterranean and thereafter to lay up at an Italian port has been agreed to provided for the passage from Hong Kong to the Persian Gulf the ship is so ballasted that the stresses in the topsides and bottom are kept to a minimum. In view of this the owners should be requested to submit their proposals for the arrangement of ballast condition before the ship sails from Hong Kong.
