

Motorship "ETTRICKBANK"

Captain Pearce has called and stated that owing to a strike of tugmen at Calcutta the Owners are in a serious position with some of their ships waiting at Sandheads to get into the port.

The "ETTRICKBANK" is now discharging and as their schedule has been completely upset the Owners wish to send her on another voyage to South and West Africa before disposing of her.

They therefore request maintenance of class until October next and will be prepared to submit the vessel to General Examination afloat and Load Line Survey now at Calcutta.

If agreed, they would like cabled instructions sent to Calcutta today.
