

Maudir

6810 4097.

Before this case receives the consideration of the Committee, the Oslo Surveyors should be referred to their statement that the press boilers which were fitted when the vessel was converted into a whale oil factory "have been constructed as per approved plan", and they should be asked to furnish full particulars of identification of all the press boilers now on board, together with particulars of their approval. If the boilers were constructed under survey in their district, they should at the same time forward for reference a copy of their report thereon.

Yhrn,

16. 8. 33
