The class is assigned and maintained upon the understanding that the equipment will be made to accord with the requirements of the Rules when the present state of emergency has passed.

Insert in S.R.L: (A bower anchor and 60 fathoms of chain cable to be supplied).

The Surveyors should be referred to the entries under "Particulars of Electric Welding" and "Special Notations" on page 4 of their report and requested to state for what extent the forward shell plating has been electrically welded and whether the welding has only been applied to the butts of the plating.
