95, Bothwell Street, Glasgow, C.2.

26th January, 1935.

My dear Gardiner,

I have your letter of the 25th instant regarding the riveting of the shell butts of the "ANTEO" and as you know the Genoa Surveyor wrote the report and as I have no plans here I have cabled to Genoa. I think it must be a slip, for you will see by the report we put the ship through a small tooth comb and I don't think we missed the butt riveting. I think we would have noticed if there had been anything wrong, but I will send you a wire as soon as I hear from Genoa.

With kind regards,

Yours sincerely,
