18th May 1934,

This is to Certify that

the undersigned Surveyor to this Society did at the request of Messrs Fiat Stabilimento Grandi Motori, Turin, attend at their Works at Turin on the 13th June 1930 and subsequent dates, for the purpose of examining during the course of construction, one Fiat Diesel Engine of the Type L.756 - Fiat Works N°1715. One Auxiliary Fiat Diesel Engine of the Type V.123 - Fiat Works N°2137 - stated to be intended for the Motor Tanker N°III building by Messrs Cantieri Riuniti, Palermo.

The Engines have been constructed throughout of tested materials in accordance with the Rules of this Society, and on completion were tested under working conditions at the Makers' Works with satisfactory results.

In our opinion a notation of \* L.M.C., with date, could be assigned if the machinery was satisfactorily fitted on board a vessel classed with this Society.
