To be filled in at Head Office.

Particulars of Classification (which must be inserted precisely as in Register Book and Supplement)

Surveys must be reported in the terms of the Rules. The nature and extent of Examinations and Repairs (if any) must be stated in detail, the parts examined and their condition being clearly indicated. For Annual, Special or other Condition Surveys the Summary of Examination and Condition on the back of the Report is to be carefully completed and amplified if necessary in the body of the Report. Outstanding items to complete the Survey should be summarised at the end of the Report. The reasons for Repairs must be stated. Repairs on account of Damage (the alleged cause of which must be stated) should be separated from Repairs due to other causes, and, besides being detailed in the body of the Report, should be summarised in the form below. When, at a Special Survey, the Shell and Deck Plating is drilled the results must be reported on Report 8(Dr). Whenever Anchors or Chain Cables are replaced or retested the necessary particulars are to be given on Report 8(Eq) which is to be attached to this Report.

## GENERAL OBSERVATIONS, OPINION AND RECOMMENDATION AS TO CLASS

State clearly what alteration, if any, is suggested to be made in the existing Classification or Survey or other records of the Ship in the Register Book consequent upon this survey; for example: "to remain as Classed in the Register Book without fresh record of Docking"; "to remain as Classed and to have record of drydocking 1.55"; or "to remain as Classed and to have record of drydocking 1.55, and the notation of S.S. . . . 1.55".

This ship in my opinion is eligible to remain as at present classed in the Register Book with fresh record of D.S. 9.61 subject to shell plates B. 12,13 (p.s.f.) and F9,10 (s.s.f) to be specially examined and dealt with as found necessary at Special Survey.

Continuation of Ship/Mech. Report No. 13161 dated 19-9-61

11 OCT 1961

11 OCT 1961

on the S.S. D.S. "CABO PRIOR"

**Damage 3) - Found: B12,13 Bottom shell, p.s - Set up**

The Owner's Superintendent requested that repairs to the above mentioned plates be deferred until Special Survey and this is, in my opinion, a reasonable request which merits the favourable consideration of the Committee.

**Damage 4:-**

**Starboard Side Shell (Numbered from forward)**

**Found:- INDENTED:- F7,8,9,10;H3,9,10;J9,10,14**

**Now Repaired:- Renewed:- H9, F7 (part) (2)**

**Doubled (Temporary):- F10 (part) (1)**

**Frame 106 (from aft) - cropped and part renewed**

**Bottom bracket at fr. 106, faired in place.**

**7 frames in way of H9 were faired in place.**

On completion the above repairs, the side shell plating was hose tested to my satisfaction.

The Owners Superintendent requested that repairs to the remaining plates be deferred until Special Survey, and this in my opinion is a reasonable request which merits the favourable consideration of the Committee.

Of these plates it is considered that F9,10 (s.s.f) should be noted as Conditions of Class, and the remainder i.e. F8; H3,10,J9,10,14, should be noted in the Appendix to the S.R. List.

**Backing:- Ship examined in drydock, as reported in Tables 1 and 2.**

**Examn. for Postponement of Special Survey:-**

Carried out in accordance with circular no 1959, and it is submitted that in my opinion the Owner's request for postponement of Spec. Survey for one year, warrants the favourable consideration of the Committee.

**Repairs (Wear and Tear); All Rudder pintle bushes' renewed. Rod and chain steering gear opened out and overhauled. Minor wear and tear repairs satisfactorily effected at this time.**
