Subject: S.S. "LACKLAN"
Classn. H.

Dear Sirs,

We have to acknowledge the receipt of your letter dated July 28th, relative to the classification of our above-named vessel.

It is well known that a full Special Survey will become due at the end of September next, but at this time our Company does not intend to renew the classification for the whole epoch of four years. Therefore, we would like if you would be able to give your permission for prolongation of the present valid certificate till September 1959.

For your information we may point out that S.S. "LACKLAN" will go to the dockyard of Norddeutscher Lloyd, Bremerhaven, about October 20th due to the Boiler Survey and for getting small repairs.

We would very much appreciate if you would let us know which arrangements have to be made according to the desired prolongation of the present valid certificate.

Yours very truly,

MOBIL OIL REEDEREI G.M.B.H.

MOBIL OIL V.A.C. 1951

your very truly,

of the present and the future of the world, the only way to progress is through the development of science and technology. We must not allow ourselves to be held back by the narrow-mindedness of the past.

For the sake of the world, we must not allow ourselves to be held back by the narrow-mindedness of the past. We must not allow ourselves to be held back by the narrow-mindedness of the past.

It is the duty of every citizen to contribute to the progress of his country. We must not allow ourselves to be held back by the narrow-mindedness of the past. We must not allow ourselves to be held back by the narrow-mindedness of the past.

It is the duty of every citizen to contribute to the progress of his country. We must not allow ourselves to be held back by the narrow-mindedness of the past. We must not allow ourselves to be held back by the narrow-mindedness of the past.

Dear Sir,
