29th October, 1954.

1. "LACKLAN". As recommended, except that as arranged in my letter of the 17th ultimo, a notation of Mod. s.s. Hm. - 9,540 (2 yrs.) has been assigned pending the carrying out of repairs to some of the athwartship bulkheads. In the meantime vessel's class has been amended to ALCOAL "Carrying homogeneous cargo of petroleum in bulk", and I shall be glad if you will inform Owners accordingly. Will you please confirm that the drillings the bottom shell plating, as requested in my cable of the 31st inst last, were taken with satisfactory results.

Confirmation is also desired that the centre boiler was
dred.
