30th May, 1929.

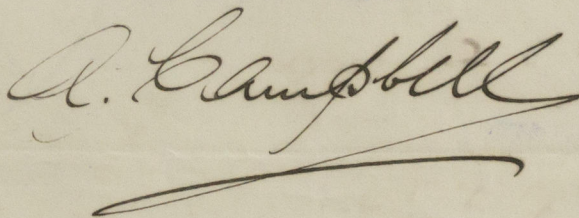

Dear Sir,

In reply to the London letter of the 28th instant having reference to the Glasgow Report No. 49218 on the Exhaust Turbine Installation No. 8, I beg to state that I have to-day made enquiries and find that the correct diameter of the intermediate shafting is $12\frac{1}{4}$ " not 12" as given.

I regret the error and shall be glad if the correction can be made in the above report.

I am, Dear Sir,

Yours faithfully,

The Secretary,
GLASGOW.
