ISLAND NAVIGATION CORP.

TOKYO

5th February, 1959

General No.154

(H). Messrs. Lloyd's Register of Shipping,  
YOKOHAMA

S.S. "PACIFIC MARINER"  
Coming Survey in May/June 1959

We thank you for your letter of the 23rd January on the caption of the renewal of Lower Main Injection Valve Casing, we would now, after the exchange of correspondence with our Engineers at Sasebo, advise you that the same has been placed and will be renewed during her coming survey, as above stated.

At the same time, we will carry out general examination in accordance with your general practice together with Boiler Survey and Tailshaft Withdrawal as advised you before.

In order to meet the captioned vessel's commitments on Goa Ore, we are now directed by the Owners to request you asking your Principals' approval of one year's grace for the vessel's Special Survey which falls due in June, 1959.

We are looking forward to having your favourable views at your early convenience.

Yours faithfully,

Signed.
