Name of Surveyor

Dear Mr Watt,
 The S.S. "Aberdeen"
 No 76 in Reg. book, has just arrived
 here & it is proposed to close up
 the tonnage openings etc. in the
 Shelter Deck space, with a view
 to reassignment of load line. As
 we have not had a case like this
 before, I should be glad if you
 would be good enough to let us
 know if there are any special
 things to look out for in dealing
 with the matter over & above the
 instructions given in Circular
 No. 1292. As regards a report, I
 take it that all that is required
 is particulars of weather deck
 hatches and a list of alterations
 effected. I hope that you don't
 mind my troubling you like this

W. Watt Esq.,
London.
