

Zula:

$\frac{1}{2} \times \frac{1}{2} = \frac{1}{4}$

## HATCHWAYS.

If the vessel now building is intended for river service only, the proposed arrangement might be approved, but if the vessel is intended to proceed to sea it is considered that, as previously intimated, a recess should be made at the after end of the coamings to allow of the cleats being fitted on a vertical end coaming.
