Dear Sir,

44 561

Motorship "NYON"

I duly received your letter of the 15th January in-
forming me that the circumstances of the "NYON" will be reported to
the Committee today, and that you anticipate they will give instructions
for the vessel's class to be deleted by some form of casualty notation.

I also acknowledge the papers in connection with the
"DUKE OF YORK" - a similar case - and if we are asked to arrange
for a certificate to be issued to cover the towage of the "NYON"
to the Continent we shall be guided by a similar certificate in
connection with the "DUKE OF YORK".

The documents forwarded with your letter will be re-
turned in due course.
