Reference Fbd.

24th June, 1955

Dear Sir,

"SAINT BERNARD" and "NYON"

I duly received your letter of the 14th June, the contents of which have been noted, and in reply I have to say that the type of hatch securing arrangements should be indicated on Rpt. C11(a), i.e. either locking bars or steel wire rope lashings where these are required.

This information is necessary in order to ascertain if the ships comply with the Rules in this respect, and in this connection I think it well to refer you to paragraph 41 of part 4 of Instructions to Surveyors.

Yours faithfully,

pro Secretary.

C.E. Hall, Esq.,  
ADELAIDE.
