17th September, 1963.

Dear Sirs,

M.S. "CLYDE INVENTOR"

DET
With reference to my letter of the 23rd July, 1962 addressed to your Glasgow Office, I shall be glad to learn if you are yet in a position to let me know what arrangements are proposed to be made for the Special Survey to be held by the end of this month as agreed.

I would point out that the Steampipe and Main Boiler Surveys became due at the end of January and June respectively, and the machinery class of this vessel has been continued subject to:-

1. Main Engine No.3 cylinder cover being specially examined by the end of November 1963.
2. Port boiler safety valve chest being renewed by the end of August 1963.

It is concluded that these outstanding survey items will be dealt with in conjunction with the Special Survey.

Yours faithfully,

Clerk to the
Classification Committee
