C4588

Lloyd's Register of Shipping.

Port NEWCASTLE ON TYNE.

30th November 1936.

This is to Certify that I have

part
Surveyed the Boiler and Machinery of the Steel s.v. "ACAVUS",
5010 tons gross, of London, while in dry dock at this Port,

and that I have transmitted to the Committee of Lloyd's Register of Shipping, London, a Report stating that all recommendations made by me in connection therewith have been carried out to my satisfaction, and that I have

Recommended that the record of L.M.C. - C.S.

be made in the Register Book in the case of this vessel when the survey has been completed.

Parts now examined:—

- Propeller and fastenings. Sea cocks and valves.
- All cylinders, pistons, liners, heads, piston rods.
- Nos. 1, 3, 5 & 8 main bearing brasses and journals.
- No. 1 bottom end brasses and pin.
- Auxiliary Air Compressor and coolers completely (port side forward).
- Centrifugal jacket cooling water pump.
- Main attached piston cooling water pump.
- Standby jacket cooling water pump.

John F. Malay

Engineer Surveyor to Lloyd's Register.

This Certificate is issued upon the terms of the Rules and Regulations of the Society, which provide that :
While the Committees of the Society use their best endeavours to ensure that the functions of the Society are properly performed, it is to be understood that neither the Society nor any Member of any of its Committees is under any circumstances to be held responsible for any inaccuracy in any report or certificate issued by the Society or its Surveyors, or in any publication of the Register Book or other publication of the Society, or for any error of judgment, default or negligence of any of its Surveyors or any Member thereof, or the Surveyors, or other Officers or Agents of the Society."
