I have surveyed the above ship in accordance with the Rules for

Towing to Bilboa, Spain to be broken up.

The items now surveyed are detailed on this report. All were found or placed in good condition unless otherwise stated.

The ship afloat, the shell plating above the waterline, deck hatch and vent coamings, superstructure, casings and all closing appliances, windlass and bower anchors, examined and considered satisfactory for the intended voyage. The Owners stated that the ship would be towed without main engines or auxiliary power on board, and that it was understood that the towing arrangements were not the responsibility of the Society.

I recommend that this ship ~~remain as classed with the fresh record of its docking~~ so far as now seen is eligible to be towed as an unclassified ship to Bilboa, Spain to be broken up.

(Where conditions of class are recommended to be retained, imposed, amended or deleted, particulars must be stated above and on the interim certificate.)
