

Agent of the Baltic Trading Co. (London) informed me  
that they were awaiting the receipt of the  
classification certificates in the above case, which they  
hadly requested (in duplicate).

Since then I would look into the matter and  
on this afternoon, giving him the 28th October, 1949.

*A.E.B.*

NEWCASTLE.

27.10.49.

463 "HYRCANIA" This vessel has today been fully classed  
with notations as recommended, including "Fitting for Oil  
at P.P. above 150°F."

Attention is called to the fact that although the  
date of survey was 22nd July, the report was not handed  
until the 3rd ultimo, and I should be glad to receive  
comments, in this connection.
