Lloyd's Register of Shipping.

(UNITED WITH THE BRITISH CORPORATION REGISTER)

C-11250

Port Kobe

19th July, 1952

This is to Certify that I have

surveyed the Boiler and Machinery of the S.S. "Stanvac Sydney"

of 7,703 tons gross of London on the 23rd June, 1952 and sub-

sequently whilst she lay afloat and in drydock at Nagasaki,

Japan and that I have transmitted to the Committee of Lloyd's

Register of Shipping, London, a Report stating that all

recommendations made by me in connection therewith have

been carried out to my satisfaction, and that I have

recommended that the record of MBS 7-52

made in the Register Book in the case of this vessel,

subject to main propulsion motor stator coils, port side

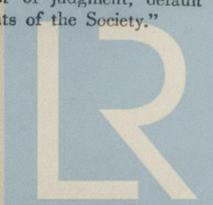

being specially examined and dealt with as found necessary

at next drydocking (before end of July, 1953).

Hamada
Engineer Surveyor to Lloyd's Register.

This certificate is issued upon the terms of the Rules and Regulations of the Society, which provide that:-
The Committees of the Society use their best endeavours to ensure that the functions of the Society are properly
performed and it is to be understood that neither the Society nor any Member of any of its Committees is under any circumstances
to be held responsible for any inaccuracy in any report or certificate issued by the Society or its Surveyors, or in any
Register Book or other publication of the Society, or for any error of judgment, default or negligence of any of its
Members, or any Member thereof, or the Surveyors, or other Officers or Agents of the Society."
