REC'D NEW YORK

MAY 5 - 1941

Principal Surveyor,
NEW YORK.

Dear Sir:

"Nueva Andalucia".
"Skandinavia"

Further to correspondence relative to the above named vessels, I now forward herewith First Entry Hull, Machinery & Boilers Reports, duly completed with a view to the vessels receiving the Society's Class, also Committee Reports 8 and 9 covering Docking Survey in each case.

There has been a considerable amount of work involved in checking and making out the Reports, and although I have a copy of same on file I should hate to be called upon to furnish confirmation copies owing to loss by enemy action. Perhaps it might be advisable to forward the "Nueva Andalucia" reports to London first, and the "Skandinavia" with the following mail, or else both together by clipper.

Yours very truly,

Wm Rennie

Wm. Rennie.
