

GLASGOW.

3rd February, 1945.

CERTIFICATE OF BOILER.

THIS IS TO CERTIFY that the water tube Boiler No. 10/1630 No. 12 made by Messrs. Babcock & Wilcox Ltd., at Renfrew and marked as below, has been surveyed during construction by the undersigned.

The material has been tested by the Society's Surveyors as required by the Rules; the scantlings are in accordance with the plans approved for a working pressure of 225 lb. per square inch and the workmanship is good. The boiler has been tested in my presence on the 16th February, 1944 by hydraulic pressure to 387 lb. per square inch and was found tight and sound in every respect at that pressure.

No. 10/1630 No. 12.
No. 21665.
Lloyd's Test.
387 lb.
W.P. 225 lb.
A.J.B. 16.2.44.
