LLOYD'S REGISTER OF SHIPPING

Port G I J O N

25th September, 1965

This is to Certify that I have surveyed part of the machinery of the S.S. Ria del El Perrol, ²²⁴² Gross tons of Cadiz for Drydocking survey, M.B.S. and TS(OG)

and that all my recommendations have been carried out to my satisfaction. I am reporting accordingly and recommending to the Committee of Lloyd's Register of Shipping that the machinery classification should be retained and the following survey records assigned M.B.S. 9,65, without fresh record of tailshaft survey, subject to the tailshaft being renewed or dealt with as necessary by the end of March 1966 and subject to any outstanding conditions of class being dealt with as previously recommended.

Parts now examined:—

Port and starboard main boilers internally and externally with mountings and safety valves and the safety valves adjusted under steam.

Propeller and all outside fastenings.

Tailshaft and oil gland.

R.M. Hobson

R.M. Hobson.

Surveyor to Lloyd's Register of Shipping
