

With regard to the "CHARLTON MONARCH" and "CHARLTON SOVEREIGN", Mr. Adam today agreed that we should leave the classification column blank in the reprint of the Register Book pending completion of survey items and boiler repairs in each case.

Should any further cases occur in which square brackets are used, he suggests we make enquiries of Blythswood Square and confirm that the practice agreed upon with these two vessels might also be made applicable.

24. 2. 49.
