

WOKINGHAM COPY.

ENCLOSURE

17th January, 1945.

S

Dear Sir,

s.s. "EMPIRE KUMASI" Gls. F.E. Report No.69178.

With reference to the above mentioned report, I would remark it is noted from the dynamo test sheets that the high voltage tests are given as 1500 volts and as the requirements of the Rules call for 2000 volts for this size of machine, I shall be glad if you will obtain and let me have any remarks the Surveyors may have to make in the matter.

It is also considered that the particulars for boiler and superheater omitted from Glasgow Report No.68149, which is returned herewith, should be inserted therein.

I am, Dear Sir,
Yours faithfully,

pro

Clerk to the
Classification Committee

The Secretary,
GLASGOW.
