State which additional Rpt. 8 is attached: (Cont); (PS); (DR); (EQ); (Rig) None.

Survey fees --- 1.00 Damage fee Expenses \$10.00  
 Temp. Dam. \$120.00  
 Reprs. *[Signature]*  
 S.A. fee --

I have surveyed the above ship in accordance with the Rules for Damage stated caused whilst loading log cargo at Sejinkat, on the 12th October, 1962.

The items now surveyed are detailed on this report. All were found or placed in good condition unless otherwise stated.

Attended on board at the Owners' request re. damage stated caused whilst loading logs in No.3 hold.

Now Done :

No.3 hold starboard side examined, one shell frame found buckled. An efficient cement box had previously been fitted over 3 frame spaces and on test was found tight. It is recommended as under that this item be specially examined and dealt with at next dry docking.

I recommend that this ship remain as classed with/without fresh record of dry docking, subject to damaged frame and shell plating in way of No.3 starboard hold (cement box) being specially examined and dealt with as necessary at the vessel's next dry docking, and to all conditons as previously recommended.

(Where conditions of class are recommended to be retained, imposed, amended or deleted, particulars must be stated above and on the interim certificate.)

Date of Committee THURSDAY 29 NOV 1962

Minute Deferea for drydocking +SS (by 4.63) Subject.
