

237.

BOARD REPORT on the S.S. "Jonge Johanna"

It is submitted the Rotterdam Surveyors be informed that as this vessel is fitted with a tonnage opening in the Superstructure deck the freeboard particulars should be reported on form 11B and not 11C. They should therefore forward an amended report and should give full particulars of the hatchways on both Superstructure and 2nd decks, and full particulars of freeing ports and Scuppers. They should also give the sheer of the 2nd deck at each eighth of the vessel's length in view of the fact that this sheer is not of usual standard form.

decked Vessel, are to be considered as Awning-decked Ships, the freeboard for which will vary with their strength.

* If the frames, skin planking, or ceiling are of unusual thickness the breadth of vessel to be taken into account shall be the breadth of the vessel at the widest part of the hull.
