

In reply to telephonic enquiry Mr. Stevens of

23rd March, 1948.

Dear Sirs,

S. In confirmation of our telephone conversation this afternoon I have pleasure in stating that the Motorship "AROS" of 3,600 tons approximately has been constructed under the supervision of the Society's Surveyors. A class of 100A1 With Freeboard will be assigned in this instance, together with a notation of LMC 3,48 subject to the pumps being examined on the vessel's arrival in Sweden.

A certificate to this effect is being issued by the Society's Newcastle Office.

Yours faithfully,

Clerk to the
Classification Committee.

The Blyth Dry Dock & Shipbuilding Co. Ltd.,
LONDON.
