

L O N D O N .

30th March, 1922.

ROBERT RAE.

the Controller General of Merchant Shipbuilding, survey during construction at the Works of Messrs. Davey, Paxman & Co., Ltd., Colchester, from the 15th October, 1918, to the 23rd February, 1920, a set of Triple Expansion Engines, designated No. 13752, having cylinders 15", 25" and 40" diameter by 27" stroke, and intended for a working pressure not exceeding 180 lbs.

These Engines were built in accordance with the requirements of the Society's Rules, and the materials and workmanship are sound and good.

They will be eligible to receive the notation of "A LMC" when satisfactorily fitted on board a Classed vessel.

Surveyor to Lloyd's Register of Shipping.
